CAREER OBJECTIVE

Backend Developer with around 3 years of experience **in building secure, scalable backend systems using** Node.js, Express.js, and MongoDB**, with hands-on experience in** FinTech domain across multiple projects**. Skilled in designing and implementing** API orchestration layers **to integrate multiple internal and third-party services, ensuring reliable data flow, transaction integrity, and high performance. Experienced in** JWT-based authentication**, secure API design, database optimization, and adherence to** industry security standards**. Strong team player with experience in** Agile/Scrum environments **and clean coding practices.**

WORK EXPERIENCE

SDE1 – FINXBRIDGE / HYDERABAD (April 2025 – present)

- **LAP (Loan Against Property)** **Client**: **M2P Fintech, Domain: FinTech**

  Worked on a **Loan Origination System (LOS)** for **Loan Against Property (LAP)**, enabling end-to-end customer onboarding and loan processing against property collateral. The system manages the complete LOS journey, including **customer registration, KYC verification, collateral details capture, eligibility assessment, credit evaluation, and loan application processing**.

- **LAS (Loan Against Shares)** **Client**: **M2P Fintech, Domain: FinTech**

  Worked on a Loan Origination System (LOS) **for** Loan Against Shares (LAS)**, enabling customers to onboard and avail loans by pledging equity shares as collateral. The system supports the complete LOS journey, including** customer onboarding, KYC verification, demat account validation, share pledge initiation, eligibility and loan-to-value (LTV) calculation, credit assessment, and loan application processing**.**

- **Carbay Indonesia - SMB** **Client**: **M2P Fintech, Domain: FinTech**

  Worked on **Carbay**, a FinTech lending platform enabling banks to approve **bulk vehicle purchase loans** for car dealers. The system supports **Express and Regular onboarding journeys** with **configurable credit limits**, maker-checker workflows, credit and risk evaluation, and controlled loan disbursement.

- **Carmudi Philippines - LOS** **Client**: **M2P Fintech, Domain: FinTech**

  Worked on **Carmudi**, a FinTech lending platform designed to **digitize and streamline the end-to-end Loan Origination System (LOS)** for **Used Car Finance (UCF)** and **Used Car Re-Finance (UCRF)** products. The system automates **customer onboarding, KYC verification, credit evaluation, underwriting, and loan disbursement**, reducing manual intervention and improving turnaround time.

BACKEND WEB DEVELOPER - RATNAM SOL. PVT LTD / HYDERABAD (Feb 2024 – Feb 2025)

- **E-commerce Application API** **Domain: E-commerce**

  Developed a scalable and secure E-commerce REST API **supporting both** admin and customer functionalities**. Implemented** JWT-based authentication and authorization**, along with** Google OAuth integration **for seamless social login. Integrated** Twilio **for** OTP-based user verification **and enhanced transactional email workflows using** Node mailer**. Focused on** data privacy, application security, and performance optimization**, ensuring compliance with industry best practices and secure handling of user data.**

- **AI Auto-Reply Backend API** **Domain:** AI / Social Media Automation

  Developed a **backend API for an AI-powered auto-reply system** integrated with **YouTube and Instagram**, enabling automated responses to user comments. Implemented **Natural Language Processing (NLP)** techniques for **comment analysis, intent detection, and response generation**. Built scalable and secure APIs to seamlessly integrate with social media platforms, ensuring reliable automation, performance optimization, and controlled API usage.

- **New Store Opening Tracker Web Application** **Domain:** Retail Operations Management

  Designed and developed a **web application to automate and streamline pre-opening workflows for new store locations**, improving operational efficiency and reducing manual coordination. The application tracks end-to-end pre-opening activities, milestones, approvals, and dependencies, enabling better visibility, accountability, and faster store launches. Built scalable backend services with a focus on **workflow automation, data consistency, and system reliability**.

- **Property Finder** **Domain:** Vacation Rental Marketplace

  Contributed to the development of a **property discovery platform** by implementing **advanced search algorithms and dynamic filters** to improve listing accuracy and user experience. Built and integrated **backend services** to support **real-time property listings with implementing web sockets**, ensuring up-to-date availability, fast search responses, and scalable data handling.

BACKEND WEB DEVELOPER - MEGAROY / HYDERABAD (Nov 2023 – Feb 2024)

- **Real-Time Chat Application** **Domain:** Communication Platforms

  Developed a **real-time chat application** supporting **user authentication, private messaging, and group chats**. Built scalable backend services using **Node.js**, **MongoDB**, and **WebSocket** to enable low-latency, bi-directional communication. Focused on **secure messaging, data consistency, and real-time performance optimization**.

BACKEND DEVELOPER - FLAPLIVE INNOVATION PVT. LTD/ HYDERABAD (Sept 2022 – April 2023)

- **Shipment Management Application** **Domain:** Logistics

  Played a key role in developing a **shipment management application** by designing and implementing **robust backend APIs** for **drivers, transit deliveries, and end users** using **Node.js, Express.js, and MongoDB**. Implemented **secure authentication and authorization** using **JWT**, integrated **Google OAuth** for seamless user logins, and utilized **AWS S3** for efficient image storage and management. Delivered a **scalable and high-performance backend solution** that streamlined booking, tracking, and shipment management workflows.

EDUCATION

FAKIR MOHAN UNIVERSITY - Bhadrak Autonomous College, Odisha - **2020**
Master of Science: Computer Science

FAKIR MOHAN UNIVERSITY - Charampa Mahavidyalaya, Odisha - **2018**
BSC: PCM (Physics, Chemistry, Mathematics)

COUNCIL OF HIGHER SECONDARY EDUCATION - Charampa Mahavidyalaya Odisha - **2015**
Intermediate

BSE (BOARD OF SECONDARY EDUCATION) Manjula Manjari Saraswati Shishu Vidyamandir Odisha – **2013**
Matriculation

SKILLS

Programming & Markup
JavaScript (ES6+), TypeScript, HTML5, CSS3, jQuery

Backend & API Development
Node.js, Express.js, RESTful API Design, API Documentation

Authentication & Security
JWT (JSON Web Tokens)

Databases
MongoDB, Postgres SQL, MySQL

Caching
Redis

Tools & Version Control
Git, GitHub, VS Code, Postman, Slip automation, SSH Tunnel, Rancher Desktop, Theneo API Documentation, JIRA, Confluence
